R-Sport De-Cat Pipe	£ 144.99
Labour	£ 495.00
	£ 4544.94
Package Deal Fitted	£ 4350

Pumaspeed can take the 1.6T EcoBoost Motor past 350 bhp with additional Custom products such as Tubular Manifolds and GTX2867 Turbochargers, cylinder head porting and Camshafts. We believe the engine internals are suited to run up to 1.5-1.8 bar boost and 325-350 bhp without compromising engine life. After 350 bhp mark we advise the use of suitable piston and rod combinations for longevity.

For any of these further upgrades please call the Pumaspeed Team to discuss the possible Solution to your power demands.
