All you need from 275 to 450 bhp Select an upgrade from one of the fully tailored packages below....

R-Sport

**MILLTEK
SPORT**

**PUMASPEED
PERFORMANCE**

K&N

Stock Turbo Power Kits

Please Note : *The rear lower torque Mount on the New Focus ST is very weak, you may already have noticed Wheel hop or wheel tramping under load. Pumaspeed Recommend the Low Vibration rear motor mount as an essential upgrade to ALL Power Upgrade Kits and the use of Pre Gapped Denso Iridium Cooler Spark Plugs.*

X-37 Hybrid Turbo Power Kits

The Ford Original Equipment Turbocharger is very small and can only run a little over 300bhp.

The following Power Kits use the tried and tested X-37 Hybrid Turbo and will deliver a huge increase in power and torque in comparison to the OE turbocharger
